FRONTEND WEB DEVELOPER

A highly skilled and creative Front-End Web Developer with a passion for crafting visually appealing and user-friendly websites. I specialize in turning design concepts into responsive, interactive, and accessible web applications. I am dedicated to delivering exceptional user experiences and seamless website functionality.

KEY COMPETENCIES

HTML5/CSS3	Git Version Control	Performance Optimization
JavaScript (ES6+)	RESTful APIs	Proactive and self-motivated
ReactJS/NextJS	Responsive Design	Excellent communication skills

---

PROJECTS

Gym Management System

The gym management system, built using the MERN stack, streamlines gym operations for gym owners. It includes authentication and authorization, a dashboard for member addition and removal, and a mobile-responsive design for easy use on all devices.

Amazon Clone   https://amazonclone123.netlify.app/

This e-commerce web application, inspired by Amazon, uses React.js, Commerce.js, and Firebase to allow users to browse products, add items to their cart, and complete the checkout process using the Commerce.js payment gateway.

Portfolio Website   https://ajayaggarwal.netlify.app/

I designed and developed a personal portfolio website using React.js, showcasing my skills and projects. This project allowed me to leverage modern web development technologies and create a professional online presence.
